# **Why an oyster survey?**

- **Resource management**
- **Lease rental based on resource**
- **Monitor population trends**
- **Shellfish mitigation**
- **Identify environmental issues**

# Oyster Surveys in SC

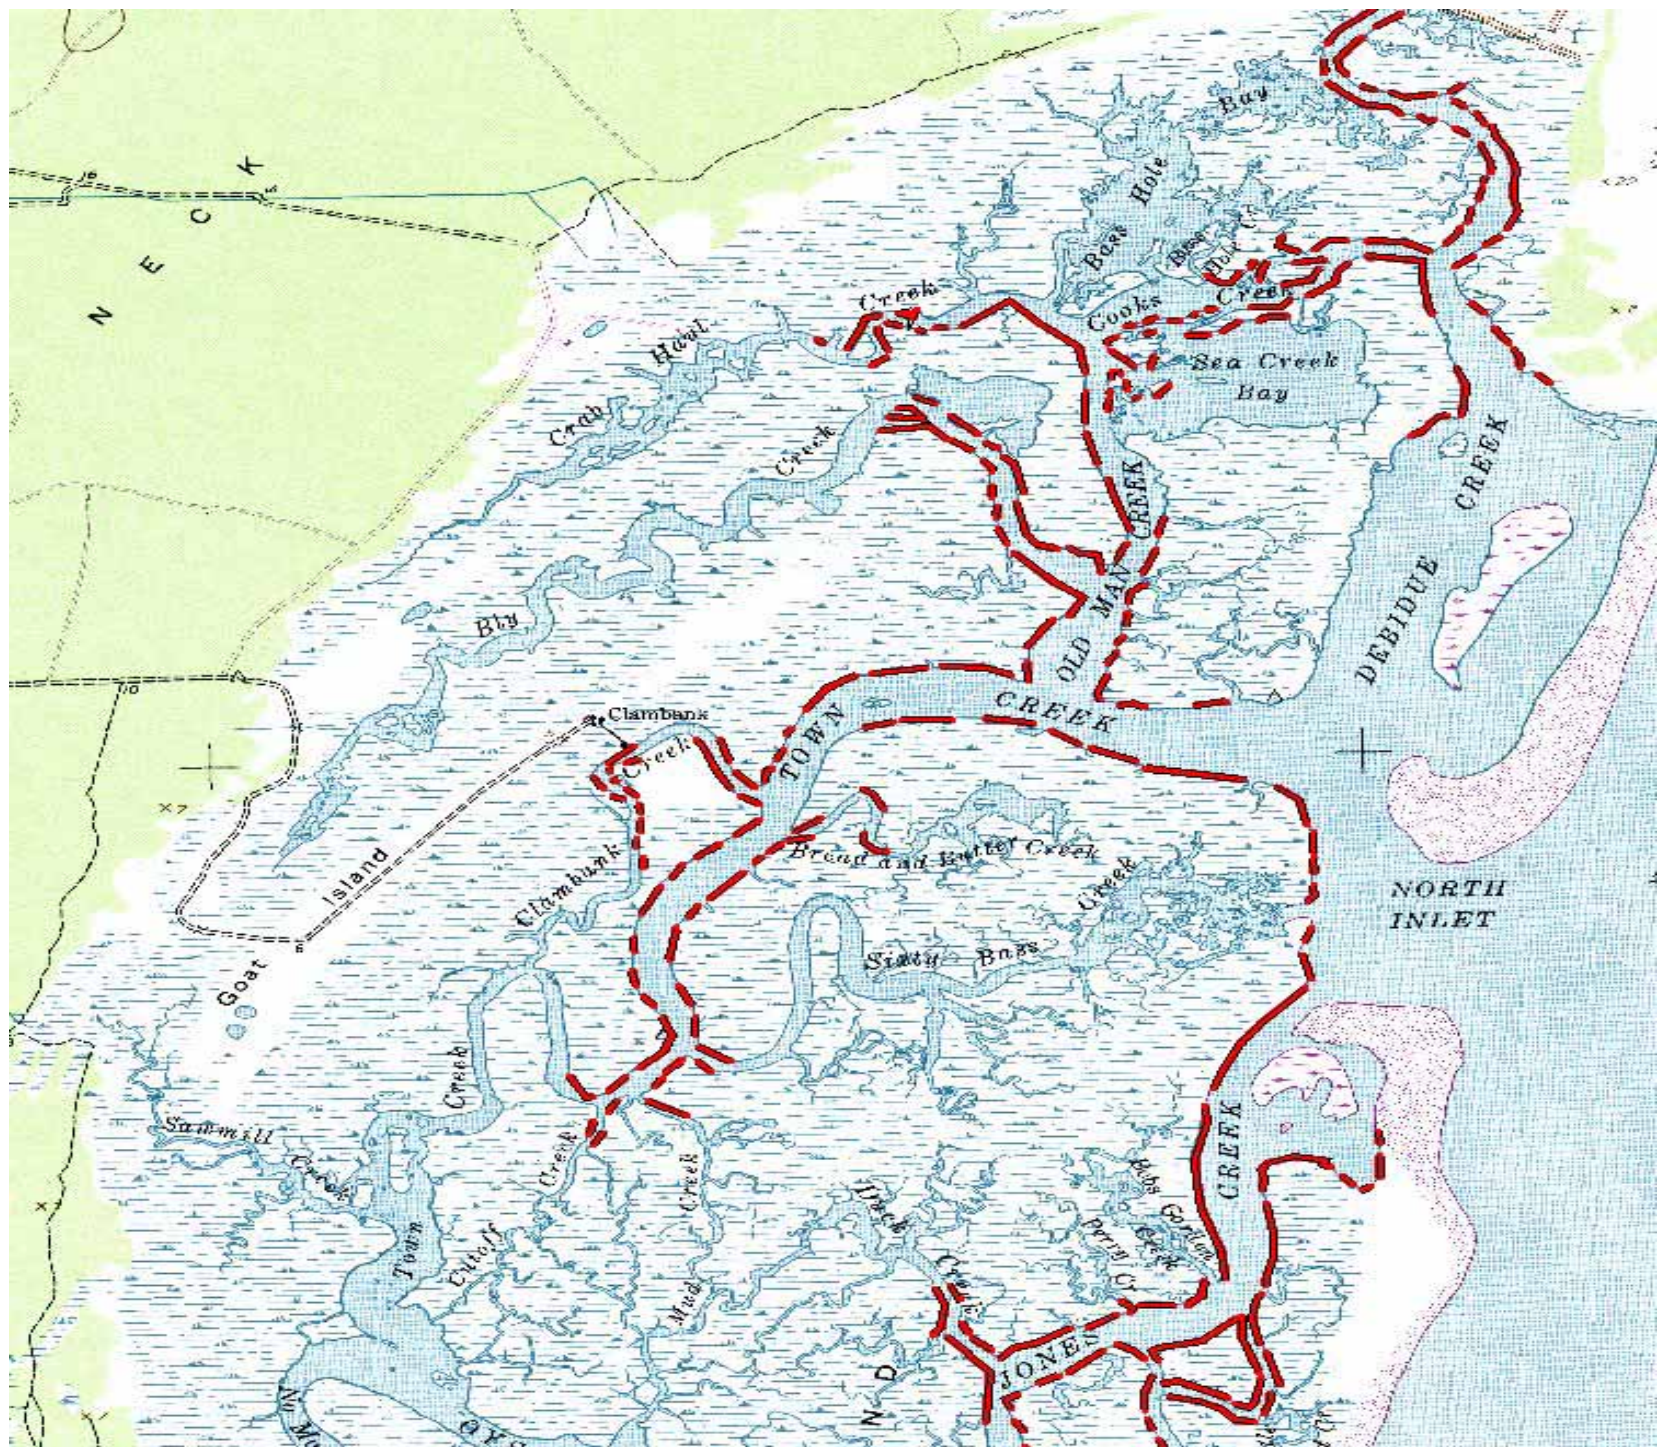

**1890/91- Battle (*Fish Hawk*)**

**1943 - Lunz**

**1969 - McKenzie and Badger**

**1980s – Anderson, Yianopoulos,  
Haggerty, Monck and others**

# Survey Concept

- **Ground truth rapid assessment**
- **Intertidal reef area (footprint)**
- **Characteristic spatial dispersions  
(strata development)**
- **Ancillary data**

# Survey Priorities

- **Areas closed to shellfish harvesting**
- **Leases (culture permits)**
- **State Shellfish Grounds (SSGs)**
- **Public Shellfish Grounds (PSGs)**
- **Grant areas**

# Survey Issues

- Shoreline (fringe) reefs
- Flat areas (patch) reefs
- Feeder creeks
- Oysters shaded by *Spartina*
- Spatial dispersions or “strata”
