

Oyster Reef Restoration Project In Pensacola Bay

Planning
Logistics
Equipment

PROJECTED RESTORATION SITE MAP

Planning

Project Location
Maps of Oyster Reefs
Population Dynamics
Substrate
Extant Reef Structures
Extinct Reef Structures
Beneficial and Competing Uses
Hydrology

Logistics

Source of Cultch Material
Transportation of Cultch Material
Staging Areas

Challenge: Find Locations That Provide:
Access for Loading / Unloading
Proximity to Deposition Site

Fossilized Cultch Material

Stockpile of Cultch Material

Challenge: Get material from Point A to B to C

Loading Cultch Material

Transportation of Cultch Material by Deck Barge

Cultch Deposition

Cultch Deposition Using High-pressure Water Stream

Washing Cultch from Barge

Oyster Reef Construction
